June 27, 2021

Dear Michael Page HR team,

As a recent graduate of both Rutgers Coding Bootcamp and Montclair State University, I am writing to apply for the job of Fullstack Engineer advertised on June 27, 2021 posted on Dice.com.

I am an extremely motivated and enthusiastic person and I have shown this, for example, when I was in the only two-person group for the final project of my cohort of the Coding Bootcamp (of 40 members) and was subsequently voted "most determined" by my peers. The project was heavily dependent on learning and implementing React.js, so I believe such determination will help me in a role that includes React.js.

I believe that I would be a good asset to Michael Page and would be available to discuss my application further at any time. I feel that I possess the attributes that are required to be a full-stack developer and I look forward to receiving a response. I thank you in advance for your time and effort.

Regards,

Daniel Fellner
